Robin Hopper: Master Artist & Teacher

Robin Hopper is an internationally known potter, teacher, author, garden designer and arts activist. He has taught throughout Canada, and in England, the United States, Australia, New Zealand, China, Korea, Japan and Israel. His ceramic work is in public, corporate and private collections throughout the world. He was born in England in 1939, and trained there at Croydon College of Art (1956-1961). He has developed studios in both England and Canada, where he immigrated in 1968. After two years teaching in Toronto at Central Technical School, he set up and headed the Ceramics and Glass Department at Georgian College, Barrie, Ontario. In 1972 he resigned from teaching to devote full energies to his work in ceramics. 1977 included relocation to Victoria, B.C., Canada, and becoming the first recipient of the **Bronfman Award**, Canada's most prestigious annual award in the crafts. He is the author of "**The Ceramic Spectrum**", "**Functional Pottery**", "**Staying Alive**", "**Making Marks**", a new edition of Daniel Rhodes' "**Clay and Glazes for the Potter**", and his autobiography, "**Robin Hopper Ceramics**". He has written many articles in major international ceramic publications.

He is the Founding President Emeritus of the Metchosin International Summer School of the Arts.

In 1993 he developed a series of six educational videos on ceramic decoration processes titled "**Making Marks**", based on research material for a book of the same title. In 1994, a second series of five videos on design and aesthetics was produced, titled "**Form and Function**", and based on his second book "**Functional Pottery**". Since then he has made "**Beginning to Throw on the Potter's Wheel**", and "**Advanced Throwing**". Robin's work in ceramics over a 50 year period includes a great deal of ceramic historical and technical research, and an ongoing studio involvement with both functional production and one-of-a-kind art works, primarily in porcelain.

Next to ceramics, good living and travel, his other life-long passion is gardening, particularly the research into and love of Oriental gardens. His "**Anglojapanadian Garden**" at 'Chosin Pottery has been featured in books, several television programs and many magazines.

Attending Robin's workshop at Dan Finch Pottery is certain to expand your knowledge of throwing, glazing, and decorating techniques.
